Alchemy of Love-Mateus Soares de Azevedo 2020-02-11 The spiritual natures of man and woman come to expression in thought, art, craft, and many other domains: from the depths of their soul-spirit constitutions even to the clothes they wear. These natures manifest also in the fullness of love, even unto sexuality, which constitutes an essential and urgent topic of our times, and which harbors also a transcendent dimension, as this book shows. "Extremes meet," says the old adage: in this spirit, the heart of this book consists in showing how the "extremes" of flesh and spirit may join together in the sacralization of love. Providing clear points of reference for safe navigation of the moral wasteland of the modern world, the contributors to this book confront with discernment and courage contemporary views that can undermine the very foundations of civilization. "There is perhaps no field more desacralized today than that of human love. The contemporary reader will discover in this volume of essays by Traditionalist authors a richness and a depth of view that counteracts the various forms of sexual reductionism of modernity."--Patrick Laude, author of the forthcoming Keys to the Beyond: Frithjof Schuon's Cross-Traditional Language of Transcendence "In this unique, fascinating work masters of the Perennial Philosophy such as Frithjof Schuon, Titus Burckhardt, and William Stoddart, together with a new generation of writers, present their insights and conclusions regarding the place of love and sexuality in our spiritual life."--Nuno Almeida, professor at the University of Lisbon "If, as has been said, virtue is the natural state of the soul as God intended it to be, the Fall is the accidental remoteness from such a state. Now, sapiential esoterism has always been there to restore this natural state, and the essays in this collection are aimed at just such a restoration."--Mehrdad M. Zarandi, editor of Science and the Myth of Progress "No topic could be more timely than that of sexuality, and none more misunderstood--for those who celebrate sexual aberrations in our time seem unaware that they are toying with the twin pillars upholding civilization. The contributors to this volume offer us an impressive array of the missing reference points that are almost unfindable elsewhere."--Mark Perry, author of The Mystery of Individuality: Grandeur and Delusion of the Human Condition

Drawing on teachings from Gnosticism, Sufi mysticism, the Kabbalah, Kundalini yoga, sexual shamanism, the Egyptian Mystery Schools, and Christ Consciousness, the author reveals the complete alchemical process of Sacred Union. She provides physical, meditative, and psychological practices that combine sacred sexuality, emotional intimacy, and transparent soul awareness to awaken the magnetic energies of your soul, draw your Twin Soul to you, and, with Twin Souls reunited, experience the passionate rapturous remembrance of becoming one with God. She explores ancient writings and rituals of Sacred Union--known as Hieros Gamos in ancient Sumeria, Sacred Marriage in the Kabbalah, Yab Yum in Tibetan Buddhism, and the Bridal Chamber in Gnostic Christianity--and offers examples of Sacred Union throughout the ages, including experiences from her own spiritual journey. The Alchemy Of Love-Sugiri Samara 2017-10-16 Buku ini berisi sekumpulan 'kata-kata mutiara' yang mengandung muatan hikmah. Secara garis besar isinya kata-kata mutiara tentang cinta, lebih tepatnya cinta transendental atau "sufistik". Membaca buku ini, pembaca diajak masuk menyelami ke dalam 'laut cinta' yang tak bertepi, sehingga diharapkan dapat memperoleh suatu "pemahaman" mengenai bagaimana semestinya cinta itu diarahkan atau dijalankan. Disebut 'transendental' karena memang semestinya cinta haruslah transenden, seperti yang telah tertulis dalam naskah ini, bahwa yang dinamakan cinta sejati adalah cinta yang bersandar hanya kepada yang maha sejati itu sendiri. Cinta sejati adalah cinta yang tak kehilangan dimensi ilahiahnya. Cinta kepada apa saja haruslah berada dalam cinta kepada-Nya. Tanpa dasar keiliahian, cinta hanya sekadar "cinta monyet".

The Secrets of Alchemy-Lawrence M. Principe 2012-12-10 "This elegant, readable book...covers the history of alchemy from its shadowy origins in Hellenistic Egypt to its scholarly recovery in the 20th century" (Anthony

Grafton, Science). In The Secrets of Alchemy, science historian and practicing chemist Lawrence M. Principe dispels commonly held misconceptions about alchemy and sheds light on what it was, how it began, and how it influenced a range of other ideas and pursuits. Principe demonstrates the importance of alchemy during its heyday in early modern Europe, and explores its enduring place in literature, fine art, theater, and religion as well as its recent acceptance as a serious subject of study for historians of science. Principe also introduces readers to some of the most fascinating alchemists, such as Zosimos and Basil Valentine, whose lives dot alchemy's long reign from the third century and to the present day. Through his discussion of alchemists and their times, Principe pieces together clues from obscure texts to reveal alchemy's secrets, and uses them to recreate many of the most famous recipes in his lab, including those for the "glass of antimony" and "philosophers' tree."

An Alchemy of Mind-Diane Ackerman 2012-10-30 From the New York Times bestselling author of The Zookeeper's Wife, an ambitious and enlightening work that combines an artist's eye with a scientist's erudition to illuminate, as never before, the magic and mysteries of the human mind. Long treasured by literary readers for her uncommon ability to bridge the gap between art and science, celebrated scholar-artist Diane Ackerman returns with the book she was born to write. Her dazzling new work, An Alchemy of Mind, offers an unprecedented exploration and celebration of the mental fantasia in which we spend our days—and does for the human mind what the bestselling A Natural History of the Senses did for the physical senses. Bringing a valuable female perspective to the topic, Diane Ackerman discusses the science of the brain as only she can: with gorgeous, immediate language and imagery that paint an unusually lucid and vibrant picture for the reader. And in addition to explaining memory, thought, emotion, dreams, and language acquisition, she reports on the latest discoveries in neuroscience and addresses controversial subjects like the effects of trauma and male versus female brains. In prose that is not simply accessible but also beautiful and electric, Ackerman distills the hard, objective truths of science in order to yield vivid, heavily anecdotal explanations about a range of existential questions regarding consciousness, human thought, memory, and the nature of identity.
